

Pure Transfer's platinum cured silicone orifice plate gaskets are constructed using a platinum cured gasket & a 316L stainless steel plate. These gaskets are available as a solid plate design, with eccentric, concentric or self-draining hole options. There's also the option to make them totally bespoke! Our platinum cured silicone orifice plate gaskets are easy to install between any ASME BPE or tri-clamp style fittings.

Available Sizes

Part #	Gasket O.D.	Gasket I.D.	Bead
